

Jacline Deridder is from Belgium where she learned black and white traditional film photography.

She and her sister collaborated on photographic projects and won several awards in Belgian competitions. She has been making photographs for over 25 years.

Jacline attended numerous schools. She has earned 2 masters, one in History of Arts and the other a Masters in Business Administration. She completed a program in Visual Communication at the Académie des Beaux Arts and attended the Royal Conservatorium of Music in Brussels.

Jacline comes from a creative family of artists and teachers. She has worked in a variety of media including acrylics, pastels, murals, clay and others.

Jacline started learning digital photography in 2000 and enjoys the expanded possibilities of the digital darkroom. She started to show her photographs in public places in 2004 and has won several awards in California.

Like Laurel, she learned a great deal about the digital treatment of images from Cooksey-Talbott workshops at the Fremont Art Association over the last year.

Jacline enjoys the challenge of capturing the lines of light, beauty and humor in the everyday environment. It's all about intention and composition.

Jacline is the current President of the Fremont Art Association, a member of the Olive Hyde Art Gallery and the Fremont Photographic Society.
